SANTA MONICA, Calif., Oct. 15 -- National Disclosure Authority (NDA), an independent hazard disclosure company, founded by the most experienced disclosure experts in the industry, announced today that Keller Williams Realty Westside, a leading Los Angeles real estate brokerage firm, has chosen to name NDA as one of their preferred providers.

Founded in 1983, Keller Williams Realty Inc. is an international real estate company with more than 600 offices located across the United States and Canada. The company became the fourth-largest U.S. residential real estate firm in North America in 2006.

"We are pleased to include National Disclosure Authority among our preferred vendors. Keller Williams Realty's approach to real estate is built on the latest technologies, market research and business strategies," said Robert Aigner, team leader with Keller Williams Realty Westside. "NDA's state-of-the-art reporting services as well as its commitment to environmental conservation will help us exceed our clients' expectations," he added.

NDA represents a "new generation" of disclosure reports, using state-of-the-art technology to achieve the most thorough and precise disclosure reports available in the industry. The company also prides itself on its passionate commitment to environmental responsibility, with the NDA "Green Team" practicing green conservation in its operations, including planting a tree for every paperless report order it receives.

"We are very pleased with this recognition from Keller Williams Realty Westside, and we look forward to serving the firm's clients with the most accurate reports available in the industry," said Sergio Siderman, NDA president and founder. "Like many of our region's most successful brokerages, Keller Williams understands the value of technology, and values the integrity of our mission to help protect the environment," he added.

About National Disclosure Authority (NDA)

National Disclosure Authority (NDA), formed by the most experienced hazard disclosure professionals, uses state-of-the-art technology to provide the most thorough and precise hazard disclosure reports available in the industry.
