# National Disclosure Authority (NDA) Launches First Annual Green Earth Day Celebration in Angeles National Forest

Thursday April 17, 12:26 pm ET

## Staying true to their environmental commitment, NDA invites family and friends in the real estate community to dig in and help!

SANTA MONICA, Calif., April 17 -- National Disclosure Authority (NDA), the leading hazard disclosure company in CA, announced today that it will host company-wide friends and family tree planting event in honor of Earth Day and to celebrate the company's ongoing environmental efforts. The event will take place in the Angeles National Forest on April 27, 2008.

The event is set to kick off at 10 a.m. with an instructional session on the plantings of the trees, led by Tree People, an organization committed to training communities to plant trees and care for the environment. Participants will dig and get their hands dirty by helping to re-forest the land. Throughout the fun-filled day, participants will also take part in barbecuing, games, and entertainment for all ages. Please R.S.V.P. to Maria Cordova at [mcordova@ndareports.com](mailto:mcordova@ndareports.com).

A 100% employee-owned corporation, NDA represents a "new generation" of disclosure reports, using state-of-the-art computer technology to achieve the most thorough and precise disclosure reports available in the residential and commercial real estate industries. Since their inception NDA has grown exponentially, forging relationships with real estate brokerages all over California and establishing a proprietary technological partnership with Digital Map Products, the world's leading provider of web-based embedded mapping and Geographic Information Systems (GIS) solutions. In addition, NDA has planted more than 10,000 trees throughout Southern California and has fervently worked to educate the real estate community regarding the green movement.

"Our company prides itself on our passionate commitment to environmental conservation and restoration," said NDA's CEO and founder Sergio Siderman. "We are thrilled to be hosting a planting event for Earth Day and invite all of our colleagues in the Real Estate community to join us," he continued.

Every time a client orders a paperless report, NDA plants a baby tree. Events like this are not rare for Siderman and NDA. Several times throughout the year, NDA employees and friends in the real estate community gather to plant trees on NDA's "Green Days," but this event will be the first to take place in festive style. With 4,000 baby seedlings ready to go in the ground and great weather in store, NDA's Green Earth Day celebration is a day you won't want to miss.

### About National Disclosure Authority (NDA)

National Disclosure Authority (NDA), formed by the most highly experienced professionals in the disclosure business, uses state-of-the-art technology to provide the most thorough and precise hazard disclosure reports available in the industry. Based in Santa Monica, Calif., NDA is the only independent disclosure company in the nation completely dedicated to the preservation and improvement of the environment. Among other "green" activities, the company plants a sapling for every paperless report it generates.
